Vocational Training & Skill Development

ABOUT US

Rajiv Gandhi Vocational And Industrial institute was established in 2015 by Helping Hands Foundation Trust registered under Indian Trusts Act 1882. RGVITI is an ISO 9001-2015 and QCI certified organization. Rajiv Gandhi Vocational And Industrial institute is Registered in Labour of Ministry. RGVITI has established various educational institutes for spreading quality education at economical prices. RGVITI established as a nationally registered training organization. Through our extensive industry experience RGVITI brings together a wealth of knowledge, in a wide range of industry sectors, delivering quality training solutions focused on the professional development of individuals in order to meet the needs of industry and the future workforce. Our competitive advantage is in the excellence of our educational services, focusing on industry engagement and collaboration to develop training solutions to meet the needs of individuals and the organization, we offer flexible delivery strategies designed to meet the vast and varied learner styles to enhance learner engagement, add credibility and relativity to our programs in order to actively drive the productivity and competitiveness of organizations/industries, as well as contribute to the social and economic development of our local communities.

VISION & MISSION

OUR VISION

To provide higher technical, computer & vocational education in low fee structure for every urban & rural areas all over india. Our institute will be regarded as the centre of Skill Development, vocational and Computer Education, a service provider of choice for career commencement and professional development to the society. We will be committed to gain a reputation of excellence in delivering quality education services to, local businesses, domestic and national students enabling all stakeholders to reach and achieve their goals.

OUR MISSION

Our mission is to provide a safe and supportive learning environment with opportunities for each student to develop the technical skills & knowledge to become a social, responsible and successful citizen of India. To take initiative to promote local entrepreneurs to set up institute for providing vocational training to the students for their skills development .To advance vocational education and training to develop professional competencies for the future workforce and foster social and economic development of local and international community's "Impact Training Institute endeavors to be a professional, community spirited and progressive training body, offering flexible, tailored training and education solutions designed to educate, in-

ABOUT VOCATIONAL EDUCATION

Vocational education refers to the training that emphasizes on skills and knowledge needed for specific job, trade or craft. Vocational education is provided for wide range of job functions in various sectors like Computer, Electrical, Electronics, Mechanical, Paramedical, Fire & Safety, Fashion Designing, Personality Development and many more. Students can choose from diverse courses available as per their skills and interest.

BENEFITS OF VOCATIONAL TRAINING

JOB READY: Vocational education makes a student employment ready. It provides students required skills and training for a particular job such as Computer, Electrical, Electronics, Mechanical, Paramedical, Fire & Safety, Fashion Designing, Personality Development etc. Along with the classroom instructions students also get practical knowledge. This makes the students job-ready and experts in their field

LOW EDUCATION: Cost: Vocational courses are easy and cheaper alternative for students who do not want to take a three year degree course and cannot afford the hostel fees, commuting and added costs. Many vocational courses are as good as degree courses and provide employment to the students. Vocational course is the best option for those who cannot manage the expenses for college degree

EASY EMPLOYMENT: Vocational training makes it easy for the students to find employment opportunities. There is a growing need of skilled and efficient manpower for jobs in various sectors. The students with vocational training have advantage over the college pass outs. The students with vocational training are preferred as they possess right skills, education and knowledge for the job. Thus, easy and fast employment is a major advantage that students with vocational training have. Vocational education and skills can also provide students employment opportunities in foreign countries

CAREER ADVANCEMENT: For people who already have a job and want to acquire further skills to enhance their career, vocational education is the best alternative. The duration of the course is quite less compared to the degree courses but the skills imparted are quite important and useful. Professionals can improve their career prospects and be successful. Students who are less interested in academic studies or the drop outs can choose from the diverse courses available and enhance their skills in the field of their interest. Vocational education can help students make a successful career.

CAREER ADVANCEMENT: For people who already have a job and want to acquire further skills to enhance their career, vocational education is the best alternative. The duration of the course is quite less compared to the degree courses but the skills imparted are quite important and useful. Professionals can improve their career prospects and be successful. Students who are less interested in academic studies or the drop outs can choose from the diverse courses available and enhance their skills in the field of their interest. Vocational education can help students make a successful career.

Meet Market Demand: Employers in various industries rely on training organizations to impart knowledge and skills to the workers. These training organizations need to train the workers and ensure that their services meet the needs of employers and the students are job ready. Students who pursue vocational courses at college level do not require undergoing such training programs. This saves the company cost spent in training

ECONOMIC DEVELOPMENT: There is a growing need of skilled professionals in various sectors across the world. The existence of skilled manpower is beneficial to the society and also for the economic development of the nation. There would be lesser need to import manpower from foreign countries at higher wages

JOB SATISFACTION: There are also various indirect benefits. For instance, vocational education boosts confidence of the students and they are well groomed and trained that makes them eligible for specific jobs. It also increases the job satisfaction and results in high productivity
